INTEREST IS CENTERED IN OFFENSIVE ON MACEDONIAN FRONT

SEE "RUSE" OF GERMANS IN PROPOSAL

Official Circles at the National Capital Await Formal Presentation.

By Associated Press Dispatch.

Washington, September 16. — Receipt of the official text of the Austrian peace proposal was awaited today by officials here but unless the communication is couched in terms radically different from the text contained in press dispatches it was felt the entire plea should be characterized as a German ruse to obtain the best possible terms before an allied victory could impose the most severe punishment upon her.

The proposal as viewed by officials it was reiterated, does not contain a single basis upon which the entente powers and the United States would be willing to meet the authors of the plea.

PARIS UNSURPRISED AT AUSTRIAN OFFER

(Associated Press Cable)

Paris, September 16. — The Austrian proposal for a conference of belligerents was not much of a surprise in Parisian political centers where it is considered to be a consequence of the recent military successes of the allies.

The general impression is that the new peace offensive cannot be fruitful.

(Associated Press Cable)

Paris, September 16. — It is reported from a Berlin semi-official source that Foreign Minister Burian's move in making his peace proposal constituted an act binding Austria alone, says a Zurich dispatch today.

Germany, it is declared, took no part whatever in drawing the note.

INSINCERE BALFOUR'S VIEW OF IT

(By Associated Press Cable)

London, September 16. — A. J. Balfour, the British foreign secretary, giving his personal viewpoint on the Austrian peace note to visiting journalists, said:

"It is incredible that anything can come from this proposal. Coming after the recent statement of Friedrich Von Payer, the German Imperial Vice Chancellor," Mr. Balfour said, "this cynical proposal of the Austrian government is not a genuine attempt to obtain peace. It is an attempt to divide the allies."

British Push Forward to New Posts Along the Ypres Comelines.

Enemy Guns Have Been Hammering Hard on American Lines.

(By War Editor of The Associated Press)

Allied troops are on the offensive on the Macedonian front. Reorganized Serbian forces aided by French units are attacking the Bulgarian positions in the mountains on the Serbo-Greek border east of Monastir.

Three important hill positions which had withstood allied efforts through several years, already have fallen to the Serbs and the French. Several hundred prisoners have been taken in the advance, which continues.

FRENCH AND BRITISH.

Meanwhile the French and British troops on the main battle front in France continue their progress. Between the Oise and the Aisne the French are pressing on. North of the Aisne they have taken the town of Vailly and have stormed Mont Des Finges an important hill position.

Astride the Scarpe the British have pushed forward new posts while along the Ypres-Comelines canal southeast of Ypres they have advanced on a front of two miles.

West of Cambria and around St. Quentin the activity has died down.

The air and artillery arm have been active on the American front southwest of Metz. The enemy guns have been hammering the American lines but no infantry attacks have developed.

Allied aviators have bombed railroad centers in the Metz area, while enemy airmen have bombed some places within the American lines.

By Associated Press Dispatch.

San Francisco, September 16. — The California Supreme court today denied Thomas J. Mooney permission to seek a writ of error in the United States Supreme court.

Cincinnati, O., September 16. — The police strike was declared off by the policemen shortly after noon today. The men came back without obtaining any guarantees from the city officials relative to their demands.

SURRENDER OF HUN SOLDIER

"KAMERAD" This is truly one of the most remarkable pictures received in this country from the fighting front in France. The photo shows a German soldier, with the cry of "kamerad," emerging from a dugout and surrendering to a British Tommy. The photographer just caught him in the action of raising his hands above his head. With the morale of the German troops at its lowest ebb, the advancing Allied soldier finds the Hun in all sorts of hiding place, from which he emerges in abject surrender rather than risk his hide.

HEARTRENDING SCENES WHEN RESCUED LAND

Hundreds of Survivors of Torpedoed Ship Galway Castle Land at Plymouth.

(By Associated Press Cable)

Plymouth, England, September 15. — Heart-rending scenes were witnessed here when hundreds of survivors of the torpedoed steamer Galway Castle were landed at seven o'clock Thursday morning. One hundred and ninety people were reported to have perished.

The passengers were mostly women and children and it is believed that whole families have been lost.

Among the survivors were little tots scarcely able to walk, crying in vain for their parents. There seems no reason to doubt that the vessel was torpedoed without the slightest warning.

The explosion occurred between the engine room and a stokehold, a fact which is taken to rule out any possibility that the ship struck a mine.

The explosion caused comparatively little noise, but caused the ship to buckle in a most extraordinary manner.

ROLL OF HONOR

Monday's casualty lists totaled 196 and of these, eight are Ohioans. Eighteen of the total are in the Marine Corps.

The army list is divided: Killed in action, 4; missing in action, 65; wounded severely, 90; wounded degree unknown, 9; died of accident, 2; died of wounds, 7.

The Ohioans are: Wounded in action, severely, Private Clarence McQuilly Buford. Missing in action: Privates Raymond L. Horn, Rayland; Lawrence Simon Roof, Ottawa; Cecil

PORTUGUESE STEAMSHIP TORPEDOED

Sixteen Members of Crew Make Their Way to Port in Open Boat.

(By Associated Press Cable)

An Atlantic Port, September 16. — The Portuguese steamship Leixoes was torpedoed in the north Atlantic five days ago, according to 16 members of the crew who arrived here today.

They had spent the interval in an open boat. It is feared that 35 others in three boats may have been lost.

The Leixoes was a vessel of 3,245 tons gross and was formerly the Hamburg-American steamer Cheruska. She was requisitioned by the Portuguese government after having been interned in a Portuguese port.

25,000 MINERS IN ANTHRACITE MINES STRIKE

By Associated Press Dispatch.

Shamokin, Pa., September 16. — About 25,000 miners in this section of the anthracite region suspended work today in the conformity of the decision of a mass meeting held yesterday.

They are asking for a wage scale equal to that of the bituminous miners in western Pennsylvania. This involves a large increase over present wages.

ONLY FEW OF FRENCH ENGAGED

Americans Bore Brunt of Fighting at St. Mihiel, and Discharged Their Duty With Marked Valor.

(By Associated Press Cable)

With the American Army in France, September 15. — The role of the French Division engaged in the St. Mihiel battle was to attack the head of the salient and assist the Americans in their drive on the western side while the main mass of the Americans was pushing in the southern side.

Only a few French divisions were engaged. One of these, under American command, formed the extreme left of the attack on the western front of the salient. It had a powerful force of Americans on its right.

The hardest task fell to the divisions which attacked north of St. Mihiel. It had to fight its way across dense woods on the height of the Meuse river, and carry hills at 1200 feet in the face of enemy resistance. This division alone took 2500 prisoners, of whom 2300 were Austrians.

St. Mihiel cut off from the north and south was taken without a fight, the Germans slipping out Thursday night.

TWO AVIATORS KILLED IN FALL

By Associated Press Dispatch.

New York, September 16. — Lieutenant Chas. Kinney, Jr., of Covington, Ky., and Lieutenant E. H. Austin, of Boston, were killed when an army airplane from the Mineola aviation field crashed to earth in the Flat Bush residential section of Brooklyn, today.

BEST FOR ARMY

WALTER DAMROSCH

Walter Damrosch, director of the New York Symphony Orchestra, who has just returned from a visit to France, where he completed plans for the proposed army school for the instruction of bandmasters and musicians. Mr. Damrosch said that General Pershing is especially anxious to increase the efficiency of the bands, because Congress has just made it possible for army bandmasters to be commissioned second lieutenants. The army at present has 200 bands, which number will probably be doubled in a short time.

WAKE OF THE HUN STREWN WITH WAR MATERIAL GALORE

William Hubbard, Local Boy With
the American Headquarters in
France, Describes Battlefield
Where Huns Were Pushed
Back by The Yanking Yankees

Writing to his brother Jesse Hubbard, B. & O. agent at Milledgeville, Pvt. Wm. R. Hubbard, Co. C, 368th Field Signal Battalion, describes a visit to one of the battlefields where the Americans drove the Germans back, his letter in full follows.

August 14, 1918.

Dear Brother:

I suppose you can tell the environments by the type on this mill. I am on a detail that was taken from our Company to run the Telegraph and Telephone Switchboard at the Army headquarters. The wires are faster than the A. P. back home, all mill work, and they sure do burn things up. (That's the reason I have a clerical trick, Ha, Ha.) I route the outgoing and relayed messages and make up a report of the days' business, work 2nd trick, 12:00 to 3:00 a. m. Our battalion is now functioning at the (deleted by censor.) The place we were just before coming here was so near the front and so recent to the fighting there that several Boches were not buried. Most of them had been put in shell holes and covered up scantily, a few arms and legs sticking up. It would have opened your eyes alright. They let us look around and I went over the Hill to where the dugouts were, and saw that Fritz had built him a good home and was expecting to get to stay awhile, but the Yankees spoiled it all for him and hit them hard. Retreated them up an awful steep hill that I had to rest several times getting up with nothing to carry, under the hottest fire and from the shrapnel alone laying on the ground on the hill side it was a miracle any of them got up. The Americans followed up after them against their fire, then from top of the Hill and still have them going. The munitions they left were a fright. They had tried to burn some of it but it did not work, and they were in too great a hurry to get away to waste much time. Their dugouts were partially through solid rock and planked up and sealed good, and with their furniture loaded from swill chateaux, as is their custom, they were elegantly furnished. I wish

you could have seen the town that they were occupying after the Yankees were through with it. It is practically a total ruin. As an example, the church was shot to ruins and the grave yard attached fared no better. Family vaults had been blown open and tombstones were shattered and strewn all over the yard. One side of the church belfrey stands and a French soldier shoved me the cable still hanging where the Boches had pulled up their "Chig-Chigs" as they call machine guns. This was why the Americans shot up the church. It was an awful battle. I guess, and as the Boches retreated out one end of the town the American Signal Corps was coming through the other end stringing their wires. We salvaged and reclaimed a lot of German Signal Corps wire, tested it out and reeled it up for our use. I kept a 6 inch German shell 1918 for a wash basin and it sure is a dandy. When I get home will polish it up and use it for a jardiner or something. Some of them were as old as 1905 and 1907 which will prove that Germany was then creating her supply or she would not have so much old stuff. They also are using 1917 and 1918. Among the "Spoils" I tore out a sheet of German Morse but it don't amount to anything other than a souvenir, being merely a practice pad.

I think the next Liberty Loan will be a big one, for no doubt the people back home are very much enthused over what the Amexes are doing over here. There is a large captured German gun here going to the Boston Common, and that will show the Easterners a sample of what we are up against and what we do with it.

Well, I have told you about all I can think of. Will write more often if we are settled, let me hear from you often. Notice my A. P. O. number to the address.

Love to all the folks at home, both of them I mean.

Your Brother,

BILL.

REV. ROSS SAILS DURING LAST WEEK

By telephone Monday morning it was learned of Mrs. F. E. Ross, of Columbus, that Rev. Ross, who has been engaged in Y. M. C. A. work in France for six or seven months, was to have sailed for home some time last week, and no further word having been received from him, it is taken for granted that he is now somewhere on the broad Atlantic and may arrive home the latter part of this week, or first of next, although hardly in time for Conference.

It is understood that Rev. Ross will be returned to the Third Avenue Church, Columbus, for another year.

HAVE MIRACULOUS ESCAPE WHEN AUTO GOES OVER A BANK

Rev. David W. Barre and Mother
Plunge Over 50 Foot Precipice.
Machine Loops the Loop Three
Times Before Landing Right-
Side Up in Creek Bed—Both
Painfully Hurt.

Rev. David W. Barre, pastor of St. Andrews Episcopal Church in this city, and his mother, Mrs. Abbie E. Barre, nearly met death on Indian Hill, near Madisonville, Saturday afternoon, when their automobile plunged over a 50-foot embankment and landed in a creek bed below, after turning over three times.

As a result of the accident, Mrs. Barre sustained countless bruises and Rev. Barre had his back severely wrenched and was otherwise bruised, but both are recovering rapidly, and feel that their escape from death was almost miraculous.

The accident occurred when the brakes refused to work, and the machine ran backward over the embankment, or cliff, and literally turned end over end three times before it landed on all four wheels, the drop being fully 50 feet and the embankment being in reality a precipice of probably more than 90 per cent slope.

Rev. Barre and mother remained in the machine until it had almost reached the creek bed, when they were hurled out. Mrs. Barre falling directly underneath the machine, which struck on both sides of her, and had she not fallen into a slight depression the falling machine would have crushed her to death.

Rev. Barre was hurled against some stones and besides having a severely wrenched back, suffered a painful cut across the back. Both were given medical attention, after which Rev. Barre arranged to have the damaged machine removed from the ravine, it being necessary to entirely dismantle the machine and drag it up the embankment piece by piece, incidentally the nature of the spot where the mishap occurred.

Rev. Barre was able to conduct his usual Sunday services, and both he and his mother are improving slowly.

INJURED WOMAN IS TAKEN HOME

Mrs. Salina VanOstrand, who was seriously injured in an automobile accident on the Jamestown pike, Friday evening when her son, who was intoxicated, struck a vehicle and their machine was overturned in the ditch, was removed to her home in Dayton, Sunday, after having spent the time since the accident, in the Payette Hospital.

The woman's condition was still very bad, and it is believed that there is still danger of her injuries proving very serious.

CENTRAL HEAT IS TURNED ON TODAY

Central heat, used in most of the business districts and a large part of the up-town residence district, was turned on for the season, Monday morning.

Ordinarily it is turned on about September 15th, but the 15th falling on Sunday and the likelihood of leaks developing on the first day, action was postponed until Monday.

MEMOIR

Mary Tracy was born January 11, 1841, in Union township, Fayette county, where she spent her entire life. She died September 12, 1918, aged seventy-seven years, eight months and one day.

Her parents were Jefferson Snider and Mary Lindsey Snider, who were among the early pioneers of Fayette county.

On October 27, 1862, she was married to Wesley Tracy; lived on a farm two miles south of Washington C. H., on the Greenfield pike, until the death of her husband, March 17, 1909; after his death she managed the farm until two years ago she sold it and moved to Washington C. H.

Five children were born to them, Nettie, Jefferson, William R., Nellie and Maud. Three of which preceded their mother in death; Nettie and Maud being the only survivors of the family.

Mrs. Tracy was a member of the Sugar Grove M. E. church since childhood, and always took a great interest in its welfare, and was a regular attendant until the infirmities of old age prevented.

For the past several years she had been a constant but uncomplaining sufferer; she always had a kind word for those about her and was endowed with a warm and grateful heart; kind to all and devoted to her family; a good woman, a kind and affectionate mother, no greater tribute can be given.

And when death cast its shadow over her she had nothing to fear in the future and nothing to regret in the past, but she passed to that bet-

ter life conscious of an earthly duty well done.

What a Change

This war has wrought tremendous changes in conditions which only a few short years ago were considered impossible and which have today become the accepted and commonplace.

We all realize that fact. Nations and individuals have been caught in the war's maelstrom and their whole course changed.

Not two years ago this great nation of ours was supposed to be secure in its isolation, perhaps, the majority of the people at the time did not believe that our own peace-loving nation would become involved in the conflict.

Now, before two years have elapsed, so swiftly have events moved forward that not only is this nation involved in the war with an primary expeditionary force in Europe, but its tremendous military accomplishments at home and abroad, with which the people are in a measure advised, have become at once the wonder and admiration of the world and the decisive factor in the war against the Huns.

America has entered the war wholeheartedly. War work and actual warfare have taken precedence over every other human activity.

Not only that, but, perhaps, more startling than anything else and, while known, less realized, American soldiers are now actually fighting in six lands. Old Glory is being carried to victory by the valiant American armies in France, Germany, Russia, Austria, Italy and Belgium.

Besides our home armies in the Philippines, in Hawaii, in Porto Rico, on the Mexican borders, American armies are marching forward in freedom's armies in six foreign lands.

On Thursday thirteen million Americans registered for service in the armies at home and abroad until liberty is made safe for all mankind in every land everywhere.

Best of all, America and Americans have entered the war to see it through. Wherever duty calls, wherever the principles of right and justice need defenders, in far away Siberia, in France or Italy, in stricken Belgium, in the far Pacific or on the stormy Atlantic, there the American soldiers and sailors will go ready to fight, and die if need be, in defense of human rights.

Nobody thinks now of that other time of isolation, so swiftly and so pronounced has the change come upon us, and so clearly is the duty revealed.

The Peace Offensive

It is scarcely proper to comment on the new peace proposal made by Austria-Hungary to neutrals for a conference of all war nations, in advance of their formal receipt by this government.

Suffice it to say, at this time, that while the hand which extends the offer is that of Austria-Hungary, the real power is Germany.

The world has expected the peace drive—a German method of offensive resorted to when the armies in the field fail.

Debs Convicted

Eugene V. Debs, once candidate on the socialist ticket for president of the United States, was sentenced, by the federal court at Cleveland on Friday to serve ten years each on three counts in the Moundsville, West Virginia, penitentiary, following his conviction by a jury on a charge of espionage.

Debs is one of the spectacular but dangerous men who have gone up and down and across this great free land for years preaching and teaching rampant radicalism and doctrines which, in any other nation on earth, would have subjected him to arrest and punishment as an anarchist.

Debs has sowed the whirlwind for many years now and has reaped a harvest of dollars from the misguided wage-workers of the land. He has lived in ease and luxury. He has turned his dangerous radicalism into golden dollars and, as the years went by, and a tolerant government permitting him, he has become more dangerous in his utterances.

He failed to see the changes that the war brought and he must pay the penalty.

We doubt, now that the war has taught Americans the dangers of permitting such men as Debs to mount a soap box or a barrel and preach anarchy on any street corner they see fit, whether even after peace comes again big, good-natured, tolerant and free America will permit men of his type to run at large talking treason to the multitudes in the crowded cities.

The crimes of Debs are no worse now that they have been in peace times, but the menace is greater—his capacity for harm is increased.

Poetry For Today

THE LITTLE THINGS

They matter a lot, the little things,
 And they measure their bit in the sun
 Of the music of hope that sings and sings,
 And the roll of the battle-drum—
 The little things, that can turn us
 'away.
 Oh, they must be reckoned with, too,
 For they save, sometimes, from the
 things that die.
 And they help us to know the true.

We meet them here and we meet
 them there,
 They are in the paths we tread;
 They are sometimes dark and some-
 times fair,
 And they weave through our lives a
 thread—
 And the thread may snap or the
 thread may hold,
 But whatever happens, it seems
 That the little things have been part
 of the gold
 Or the bitter iron of our dreams.
 You cannot get out of the little
 things,
 Nor ignore the part they play
 In the roaring tide of life as it
 swings
 Around you from day to day—
 For it's how we manage and master
 them
 That shows us the way we'll meet
 The mighty issues of life's great
 strife,
 With success or a grim defeat.

Social and Personal

A quiet wedding of decided interest was solemnized at the home of Mr. and Mrs. T. N. Wain, on the Waterloo pike Saturday night, when the daughter, Miss Jessie became the bride of Corporal Harry A. Buchanan.

Both young people are most favorably known in this community and the wedding announcement will call forth heartsome good wishes.

The bride has been head bookkeeper with the Ohio State Telephone Co. for a number of years, recently resigning to accept a similar position with the Bobbs Wholesale Grocery Co. of Columbus. She is an exceptionally bright and interesting young woman.

For five years Mr. Buchanan was associated with Craig Bros. and as the successful manager of the shoe department won for himself business recognition. A sterling young fellow he willingly answered his call to the colors and has since been stationed in the Quartermaster's department at Camp Sherman.

The double ring ceremony was performed at eight o'clock by Rev. Arthur P. Cherrington. Immediately following an elegant four course dinner was served to the guests, who were confined to the immediate family and a few close friends.

The bride looked very handsome in a Pekin blue jersey dress, heavily braided, with flesh colored satin belt black velvet hat faced with the Pekin blue, corsage bouquet of Ophelia and Ward roses.

Corporal and Mrs. Buchanan left Sunday afternoon on a short wedding trip to Cincinnati and Dayton, after which the bridegroom will return to Camp Sherman. Mrs. Buchanan will reside with her parents, until her removal to Columbus the first of October.

The party was given at Cherry Hill where there was ample room to blow the bubbles to their heart's content, and the children enjoyed it to the fullest extent.

Birthday cake with ten pink candles was a distinctive feature of the dainty luncheon served, with pretty soap bubble napkins.

The clever little favors were paper bubbles which when unfolded revealed the future of each child.

ONE LEG IS GONE OTHER IS USELESS COMING HOME SOON

Relatives of Sergeant Bryce Briggs, of New Holland, have received word through Sergeant Harry Puffenbarger, also of the Circleville company which is a part of the "Rainbow Division" in France, stating that Sergeant Briggs lost his right leg below the knee and his left leg was so injured in the battle of Chateau Thierry that it is all but useless, the knee being stiff.

Word was received weeks ago that Sergeant Briggs had been severely wounded, but in a number of letters written since that time he has spoken very lightly of his wounds, and in his last letter stated he would soon be about on crutches, but refrained from mentioning the loss of one leg.

According to Sergeant Puffenbarger, who recently was returned to this country as an instructor, Sergeant Briggs was wounded by shrapnel, his right leg being shattered below the knee, the wounds being received late in July.

It is expected that Sergeant Briggs will be sent home in the near future, probably first being placed in one of the reconstruction hospitals in the east, where he will receive the most careful attention so as to overcome his great handicap sustained while fighting bravely for flag and country.

Sergeant Briggs is a son of Wm. Briggs, and is 28 years of age.

TELLS OF WORK WITH SOLDIERS

Y. M. C. A. Secretary Walter Patton delivered addresses at both Grace M. E. church and St. Andrews Episcopal church, Sunday morning, large audiences at each church giving close attention to his interesting words.

Secretary Patton heaps all praise on the American soldiers and the remarkable spirit of cheerfulness and absolute fearlessness shown by all American troops in the war zone.

He also told of the Y. M. C. A. work and its great value to the soldiers in general.

Secretary Patton declared that the work accomplished by the United States in the theater of war was astounding, and that America has great guns which can be fired with accuracy upon targets 16 miles away.

SUGAR OBTAINED SUFFICIENT FOR CANNING PURPOSES

Announcement is made by County Chairman of the Fayette County Food Administration, Glenn M. Pine, that sufficient sugar has been obtained to meet all canning needs in Fayette county, and certificates may be obtained from any member of the Food Administration of the county.

The new apportionment to this county is said to be sufficient for all canning purposes, and it is the desire of the county food administration that nothing be wasted that can be canned, hence the announcement that ample sugar will be apportioned for actual canning purposes.

The new certificates are not distributed through the grocers as the previous certificates, but are given out as above stated.

As there is evidence of a considerable shortage in all home canned goods, it is expected that from now onward the demands for sugar for home canning will be exceptionally heavy.

DON'T ACCUSE MEN IN UNIFORM

The practice of a few persons—a very few—of calling out "slacker" to soldiers who pass through the city in automobiles on Sundays, is decidedly out of place, it is pointed out by local authorities, and should be discontinued without further delay, because the soldiers may be acting under orders returning from or availing themselves of a rare opportunity of seeing their friends, not finding railroad facilities available.

In any case, it is insisted, a soldier in uniform is hardly a "slacker" and should not be called such.

GERMANY'S DISHONESTY IN RUSSIA

(American Press)

Washington, Sept. 16. — Further sensational disclosures were made in the series of documents bearing on Russia which the American government is making public.

The latest revelations show the part played by the German Imperial bank in financing the Russian Bolshevik movement, the care taken by the German military authorities to prevent spread among their own people of the socialistic preaching of their Russian tools, and the plans laid for German control of Russia economically and financially during and after the war.

Copies of the documents carry the file number of the reichbank or of the German general staff, and in some instances notations by Lenin or Trotsky, the Bolshevik leaders, now shown to have been in the pay of Germany since long before they overthrew Russia's new democratic government and virtually turned the country over to the Teutons. There are illuminating explanatory notes by Edgar Sisson of the committee on public information, who directed the investigation which resulted in the disclosures.

Millions For Agitators.

One of the reichbank memoranda, dated last January, announces to the commissar of foreign affairs (Lenine), that 50,000,000 roubles of gold has been placed to the credit at Stockholm of the representatives of the commissars to cover the cost of red guard and agitators. Another of a few days later tells of a credit of 5,000,000 roubles for the assistant naval commissar in the far east, who is intrusted with the task of carrying off or destroying the great American and Japanese stores or war material at Vladivostok—a scheme that probably was well under way when the landing of American and allied forces at Vladivostok ended the sway of the Bolsheviks there.

A resolution adopted by the German commercial banks under the auspices of the reichbank outlines an elaborate program for control of Russia by Germany and the barring of America and the allies from the Russian commercial and industrial field after the war.

How Lenin and Trotsky were betraying their Socialist friends along with Russia is disclosed by a sharp note to Lenin from the Nachrichten bureau demanding to know what steps he would take to make good his personal promise that socialistic and agitational literature would not be circulated among German troops. Trotsky wrote on the margin ("I ask to discuss it.—L. T.")

The concluding document of the installment is a German warning on Jan. 29 to Lenin that unknown agitators were circulating propaganda telling advance of the plans of the Bolsheviks to openly surrender to the Germans, as they actually did later.

WOMAN'S COMMITTEE IN THE COUNCIL OF NATIONAL DEFENSE

It is of no small interest as our efforts are being put forth to help win the war to find how similar efforts are effecting other countries.

A dispatch from Vancouver, B. C., brings realization of the changed life in Canada and what Canadians are doing to help win the war.

"The biggest result has been prohibition. The Dominion is dry as the Sahara.

The consumption of candy has been cut 50 per cent.

Picture shows and theaters have shrunk in number to a marked degree.

You can travel from the Atlantic to the Pacific and never see a piano, a phonograph, violin or other musical instrument offered for sale. Everyone is wearing old clothes.

"Why should we buy luxuries and music when our defenders need bread and the Red Cross is begging for mercy funds?" the Canadian reasons.

Travel is falling off. The summer tourist is becoming rare. One of the largest resorts in the Canadian Rockies has an average of only 30 guests, with more than twice as many servants and 500 rooms.

A street sweeper would be put in the zoo. He's nearly an extinct animal. You'll find him unloading ships and working in mines. And a water wagon—it's in the has-been class.

Canadians are chiefly concerned with getting enough to eat and wear.

MEMOIR.

Mary D. Blackmore, daughter of Thomas and Angeline Moore, was born three miles north of Washington C. H., April 10, 1865, and died, September 1, 1918, aged 53 years, 4 months and 21 days.

On the 29th of June, 1883, she was united in marriage to Turl Blackmore, who preceded her to the other world about seven years ago. To this union three children were born, whose names are as follows: Elsworth, who died when about three years of age; Jasper, of the home, and Mrs. See Callender of this city.

She is also survived by one sister, Mrs. Eva Gault; a step-mother, Mrs. Sarah Moore; three half-brothers, Albert, Charles and John Moore; and one half-sister, Mrs. Carrie Haynes, all of whom live within a few miles of Washington C. H. She is also survived by one grandchild, Marjory Blackmore.

All of her life until about ten years ago was spent within a few miles of this town; since that time she has lived in Washington C. H.

In her girlhood days she confessed her faith in Christ and united with the Sugar Creek Baptist church, where she remained a loyal and consistent member until she moved to this place when she transferred her membership to the Christian church of which organization she was a member at the time of her decease.

She has been a loyal and faithful worker in the various activities of the church work. At the time of her departure she was the superintendent of the Cradle Roll and was untiring in the doing of the important duties connected with the office.

After the death of her husband she spent several years in nursing the sick because of the sympathy and kindly disposition she was well known for.

ted for the caring of those in sickness. Whenever there was need she was always ready to lend a helping hand. In the home she was hospitable, industrious and self-sacrificing.

As a neighbor she was obliging, generous and kind. She was a friend that was reliable and true. In the doing of her work she was willing, optimistic and faithful. She leaves the record of a beautiful life filled with loving service.

There is no death, what seems so is transition; This life of mortal breath is but the gateway of the life elysian Whose portal we call death.

We wish to thank our many friends and neighbors for their kindness to us at the death of our beloved mother, and also for the many beautiful floral offerings sent. Especially do we thank Mr. Klover and Rev. G. E. Groves and the singers.

VIOLATORS FEW DURING SUNDAY

The gasolineless Sunday violators in Fayette county were so few Sunday that the could be counted upon the fingers of one hand, according to persons in position to know, and only one or two instances came to light where there were indications that persons using machines to attend church services were resorting to a pretext.

The strict observance of the request of the government has been general in all parts of the county since the first of the gasless Sundays when many persons violated the order because they had not considered it in the true light. It is needless to state that the yells of "slacker" that greeted the violators made their pleasure riding anything else but a pleasure, and they were glad to get back home.

Sunday brought to a close the conference year of the M. E. Church in this district, and the M. E. pastors in the county preached what will probably be their farewell sermons, Sunday.

Wednesday of this week the ministers will go to Portsmouth for the annual Ohio Conference, where a great many changes will be made in pastoral assignments for the coming year.

APPLE PICKERS ARE NOW IN DEMAND

By Associated Press Dispatch. Columbus, O., September 15.—Three hundred apple pickers are needed immediately to gather the immense crop in Ohio River counties, according to Thomas D. Phillips, farm help specialist of the United States employment service for Ohio.

Women as well as men who can spare a little time are wanted badly, especially in Lawrence county, where it is estimated that the crop will be 100,000 bushels, says Mr. Phillips. Apple pickers are asked to get in touch with the nearest U. S. employment office.

NEW DRIVE FOR PEACE BY AUSTRIA

(American Press)

London, Sept. 16.—In extending an invitation to all belligerent governments to enter into nonbinding discussions at some neutral meeting place, the Austro-Hungarian government states that the object of the conference would be to secure an exchange of views which would show "whether those prerequisites exist which would make the speedy inauguration of peace negotiations appear promising."

The Austrian proposal, which is announced in an official communication telegraphed from Vienna suggests that there be no interruption of the war, and that the "discussions" would go on only so far as considered by the participants to offer prospects of success.

The proposal calls for all the belligerents to send delegates for a "confidential and unbinding discussion of the basic principles for the conclusion of peace, in a place in a neutral country and at a near date that would yet have to be agreed upon." The proposal adds that the conference would be one of "delegates who would be charged to make known to one another the conception of their governments regarding those principles and to receive analogous communications, as well as to request and give frank and candid explanations on all those points which need to be precisely defined."

The government announces that a note embodying its suggestions had been addressed to the various belligerent powers and that the holy see had been apprised of the proposal in a special note. The governments of the neutral states also had been made acquainted with the proposals.

Ready For Peace Parley.

The official communication says in part:

"The Austro-Hungarian government is aware that after the deep reaching convulsions which have been caused in the life of the peoples by the war it will not be possible to re-establish order in the tottering world at a single stroke. The path that leads to the restoration of peaceful relations between the peoples is cut by hatred and embitterment. It is toilsome and wearisome, yet it is our duty to tread this path—the path of negotiations—and if there are still such responsible factors as desire to

overcome the opponent by military means and to force the will to victory upon him, there can, nevertheless, no longer be doubt that this aim, even assuming that it is attainable, would first necessitate a further sanguinary and protracted struggle.

"But even a later victorious peace will no longer be able to make good the consequences of such a policy—consequences which will be fatal to all the states and peoples of Europe. The only peace which could righteously adjust the still divergent conceptions of the opponents would be a peace desired by all the peoples. With this consciousness, and in its unswerving endeavor to work in the interests of peace, the Austro-Hungarian government now again comes forward with a suggestion with the object of bringing about a direct discussion between the enemy powers."

ALLIES TO REPLY TO JOINT NOTE

(American Press)

Washington, Sept. 16.—Germany's latest peace feeler, advanced through Austria, it was officially stated, best finds its answer in President Wilson's Baltimore speech, delivered last April.

"Force, force to the utmost, force without stint or limit, the righteous and triumphant force which shall make right the law of the world and cast every selfish dominion down in the dust."

That was the president's answer then, and it was reiterated today, it is his answer now. No one doubts that it is the answer of all the allies.

In Austria's proposal is recognized the long-heralded peace offensive upon which Germany is counting to arouse enough sentiment for peace among the people of the allied countries to compel an end of the war on terms which substantially would preserve the Prussian conquest.

If any reply at all is made it will be after an exchange of views between the United States and the other cobelligerents, so that a reply for all may be made in one. On every side, among American officials and allied diplomats, it seems agreed that the only ground on which Germany may have a conference is the acceptance of the principles laid down by President Wilson, and which have been accepted by all the allies, as their watchword.

TO SUPPLY LABOR

(American Press)

Columbus, Sept. 16.—Ohio must speed up its facilities to supply labor for war work. The demand, which is far in excess of the supply available, is growing daily. In August the labor shortage was 20,000. That was the statement made by Fred C. Croxton, federal state director of the United States employment service for Ohio. He specifically directed that the installation of the machinery by which new supplies will be drawn from non-essential industries and business be expedited. To handle this vital problem, 50 local boards, known as the community labor boards, composed of a representative of labor, employers and the employment service, are being created.

"CORN ROOT ROT" MAKES APPEARANCE

By Associated Press Dispatch.

Wooster, O., September 15.—Corn root rot, a disease which causes the pink mould found in ears of corn at cutting time seems to be more prevalent now in Ohio than at any recent corn harvesting season, according to botanists at the Ohio Agricultural Experiment Station here. Inquiries regarding the disease, it was stated have come in largest numbers from southwestern Ohio.

It is said that no easy method of prevention has been worked out for the disease. However, investigators recommend that the selection of seed corn from hills in the standing corn not infected with the pink mould as a means of combating the root rot.

COLUMBUS PIKE IMPROVEMENT TO WAIT ON THE WAR

Important Step Toward Improving Direct Highway Between This City and Columbus Is Tabled by Highway Department Which Says Other Work Makes Action Necessary.

The Columbus pike improvement, plans and specifications for which were completed a short time ago and filed with the State Highway Department, has been shelved until after the war, or at least until some indefinite period, and State Highway Commissioner Clinton Cowan urges the commissioners of Fayette, Madison and Pickaway counties to make what temporary improvements are necessary to keep the road open to traffic until conditions permit of the rebuilding of the road under the State Aid plan.

This information was carried in a letter received by the County Commissioners, who are naturally disappointed because the Columbus pike improvement is one of the most generally desired pieces of work in this part of Ohio, as it would open a direct route to Columbus where as at the present time long detours are necessary if anything like decent road is found.

Mr. Cowan declares that the demands upon the state aid building and maintenance fund, by the east and west highways of the state, have been so heavy that it is impossible to take the Columbus pike improvement under way at the present time. He declares that the east and west roads of the state have been much more extensively used, and will continue to be so used, by freight trucks, and that because of this reason the work of keeping the east and west roads in a fair state of repair is absolutely essential as a war measure.

The plans and specifications for the Columbus pike improvement from this city to the point where it has recently been rebuilt, will be ready for consideration as soon as funds become available, and in the meantime the commissioners of the three counties will make temporary repairs.

DRY ARGUMENT

(American Press)

Columbus, Sept. 16.—Terming the liquor traffic an ally of the kaiser, the Ohio Anti-Saloon league, in its argument filed with Secretary of State Fulton for the state prohibition amendment, holds Ohio owes it to its soldiers to banish this ally from the state, in contrast with the argument, filed by the wets, that it would be unfair to vote the state dry while the soldiers are away and unable to vote on the subject. Pointing out that nearly every adjoining state is dry, the Anti-Saloon league says Ohio should not submit to being made the dumping ground for the "dregs of the traffic" which the neighboring states refuse to tolerate.
